# ABOUT US

PROCESS PIPING AND INSTALLATION LIMITED (PPT LTD.) is an Engineering, Procurement, and Construction company. The founding partners have vast experience in food and beverage processing, food machinery, stainless food tanks manufacturing, industrial installations, structural works and automations.

We are specialized in Piping, Civil and Structural Works, Electrical and Instrumentation, stainless food grade Tank Fabrication, Production Line Installation, Fire Suppression System, Food production process and design , Water Treatment and Waste Water Treatment plant Installations.

In recent years, the demand for soft drinks, chocolate, milk, oil, fruit juice, alcoholic, non-alcoholic beverages and other FMCG product have increased, which subsequently required increase in Engineering, procurement and construction (EPC) for stainless steel fabrication, structural works, food and beverage processing technology, production and manufacturing, chemical, energy and power solutions became important.

As PPI Ltd, in line with all these needs, we continue to work with high-quality and high-tech products in order to meet the demands of our valued customers and stakeholders.

# Our Vision

To be leading EPC (Engineering, procurement and construction) company in Africa and the world at large.

# Our Mission

Providing world class quality projects, innovative solutions and create superior value for our clients and stake holders.

# Our Core Values

1. Safety.
2. Quality.
3. Customer satisfaction.
4. Just-in-time project

# Sectors We Serve

Building  
Maintenance

Solar Energy  
Systems

Food & Beverage

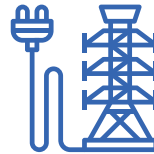

Mechanical  
Engineering

Electrical  
Engineering

Pharmaceuticals

Power Stations

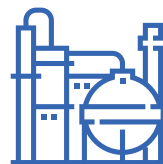

Oil and Gas

Textile

Automobile

Refineries

Our Services

# Our Services

Our services include Piping, Civil and Structural Works, Electrical and mechanical Instrumentation & Installation, stainless food grade Tank Fabrication, Production Line Installation, Fire Suppression System, Food production process and design , Water Treatment and Waste Water Treatment plant Installations.

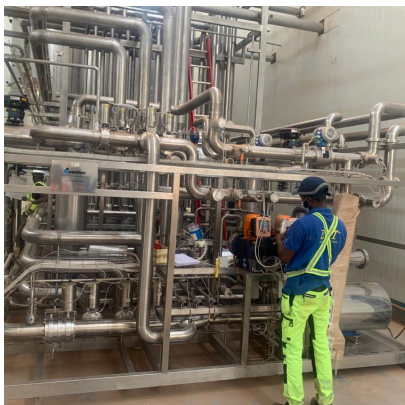

We offer insulation service for buildings, process equipment, or any other location where minimizing the loss or gain of heat is desired. Thermal insulation contractors install a physical barrier material with a low thermal conductivity to reduce heat transfer between two spaces. Properly insulating buildings and equipment can result in energy savings and improved process efficiency.

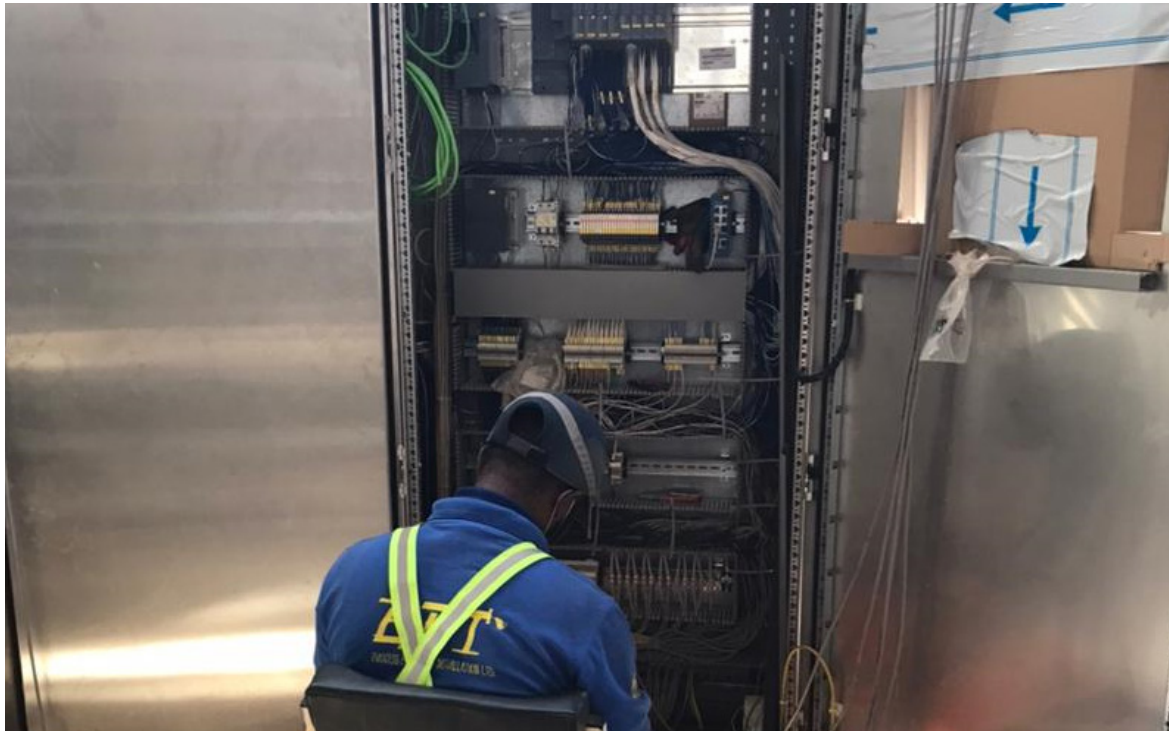

# Piping

Our team have years of experience providing stainless steel process piping, mild steel piping, PVC and HDPE piping projects for various industries from beverage, farm produce, pharmaceutical, chemicals , oil and gas and other FMCG industries.

# Electrical Installation & Instrumentation

Our team of qualified electricians provide a vast scope of services ranging from electrical powering and lighting, Automation of equipment, repairs and installation work.

# Mechanical Installation

Our team have vast experience in installation of process equipment, tanks, mechanical and electrical assemblies. We install to precision of both small, medium and large assemblies using appropriate equipment such as cranes.

# Production Line Installation

We install production line equipment for various produce such as fruit and juice, wine, alcoholic and non-alcoholic, food, grain processing, soap, biscuit and a host of other produce.

# Structural Fabrication

Our structural and Civil team provide AutoCAD, structural design analysis and all other detailed engineering for your projects.

# Fire Suppression Systems

Fire fighting systems are the systems that prevent the fire from being activated in case of fire. Thanks to the fire extinguishing system, the loss of life and property in the event of fire is prevented. Fire fighting system and techniques used in extinguishing vary according to the type of the substance and the properties of the fire

Our Fire fighting system are Water Extinguishing Systems (sprinkler and deluge), Foam Fire Extinguishing Systems, Clean Gas Extinguishing Systems, CO2 Gas Fire Extinguishing Systems and Kitchen Hood Extinguishing Systems.

# Water Treatment Plant Installation

We offer a range of service in water production and treatment from source (river, underground sourcing) to pre treatment, filtration, reverse osmosis, UV lighting and ozonation.

We provide high quality welding seams that prevents contamination by medium and ensures proper cleaning.

# Tank Fabrication

We fabricate a vast array of tanks (vertical, horizontal) for various use such as food and drinks production, water storage, production process tank, oil and fat storage tank and tank farms.

# HVAC Installation

We design a wide array of HVAC systems for domestic, commercial and industrial purposes from your homes to your companies. This demonstrates our expertise in understanding different spaces and coming up with a ventilation plan for each unique space.

# Procurement

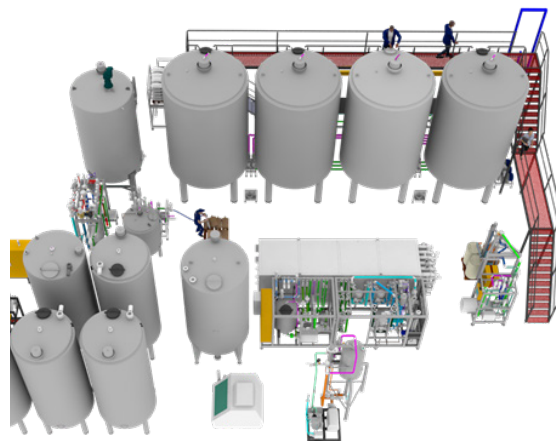

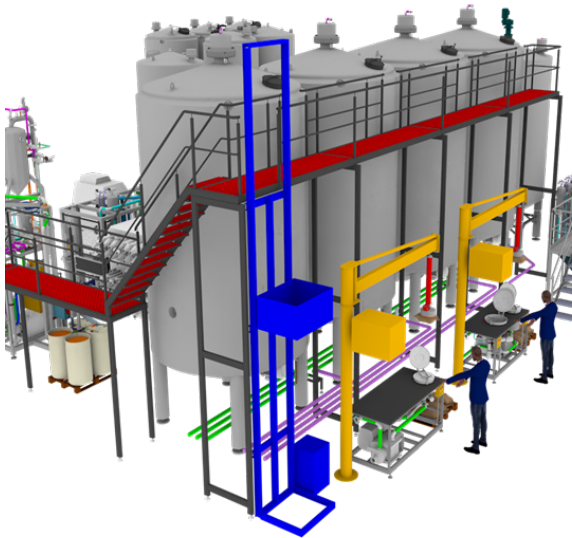

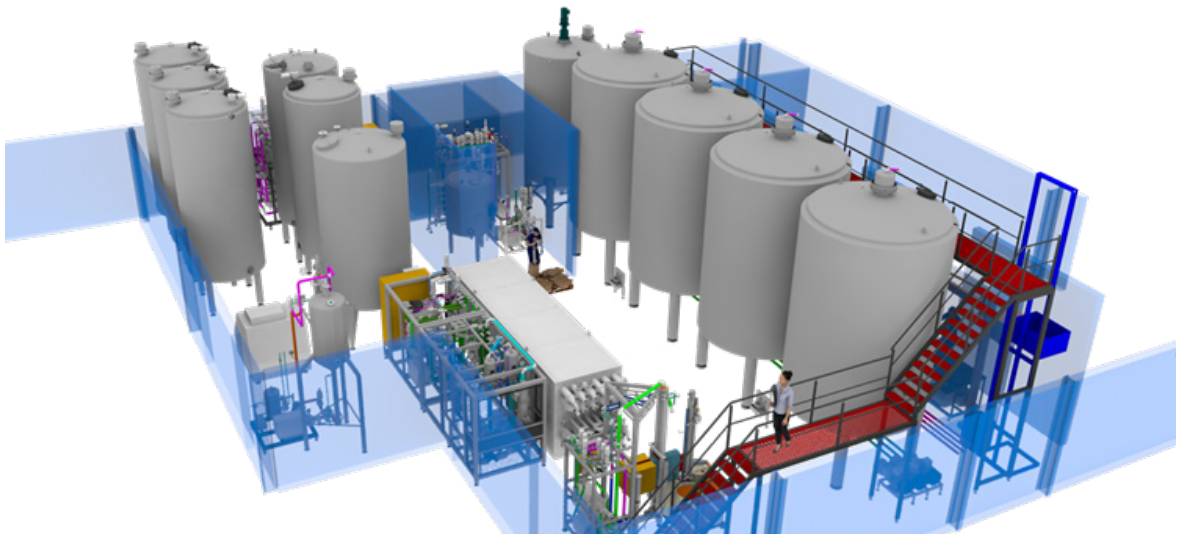

Our service is structured to help individuals, businesses and organizations maximize their investments by providing an impeccable value and reliable service. PPI Limited will work closely with you and your team to identify and manage costs across all purchase categories and procurement chain. Through our supply chain network and partnerships with OEM (Original Equipment Manufacturers), you can rely on us to deliver the absolute quality.

# Design and Installation

We design and run engineering analysis over technological tools such as Autocad, constantly solving engineering problems and improving user experience

The background of the entire page is a photograph of several rolled-up documents or blueprints. The rolls are in various shades of blue and white, creating a sense of depth and texture. They are arranged in a way that some are in the foreground, slightly out of focus, while others are further back, creating a layered effect. The lighting is soft, highlighting the curves of the rolled papers.

# Our Policies

Process Piping Installation Limited Company Profile

| 2021

# Quality & HSE Policy Statement

Process Piping and Installation Ltd (PPI LTD) is fully committed in providing quality services to our valued clients in the fields of project management, engineering, procurement and fabrication/ construction for FMCG, chemical , power and energy industries.

While doing this;

- We will ensure to protect the environment by minimizing pollution as well as reduce waste where generated.
- We are also committed to adopting the tenets of the ISO 9001:2015 & 14001:2015 Standard to continually improve the quality and environmental friendliness of our services and products
- Continually improve the quality, effectiveness and adopt innovations to guide our quality management system.
- This policy is communicated to all staff of PPI ltd and interested parties.
- This policy is reviewed to ensure continued suitability, as and when due

PPI ltd goal is to provide a safe and healthy work environment that is free from workplace injury and illness. This will only be achieved through the participation, co-operation and commitment of everyone in the workplace.

Our priorities are;

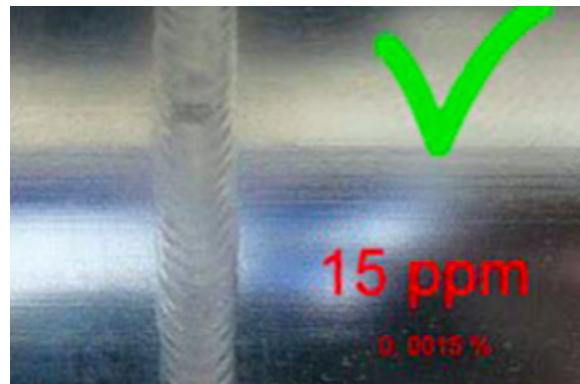

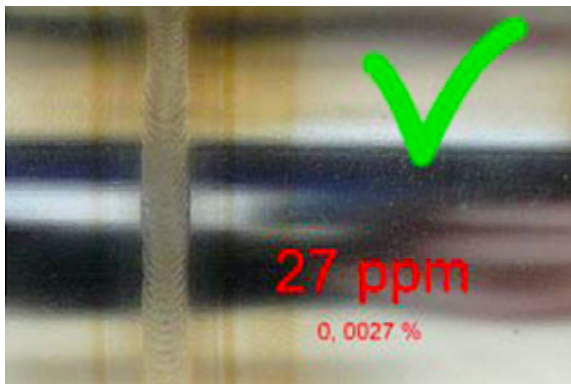

- A key Objective is Zero incidents throughout the organization and protect the environment.
- Minimizing environmental impacts associated with its activities.
- Comply with all legal and other requirements.

The following principles must be applied every day and at all sites in order to succeed in our commitment:

- Remove or alleviate hazardous situations in order to minimize risks to personnel
- Set HSE performance objectives, measure results, assess and continually improve processes, through the use of an effective management system
- Guarantee and monitor that our activities have minimal impact on the environment.
- Minimize our impact on the environment through pollution prevention, reduction of natural resource consumption and emissions, and the reduction and recycling of waste
- Apply our technical skills to all Health, Safety and Environment aspects in the design and engineering of our services and products
- Report and analyze all accidents, incidents and anomalies.
- Monitor our performance and check our management system in order to improve rules and procedures in conducting our activities.
- Maintain a consistent and transparent dialogue with authorities, local realities and other stakeholders, openly communicating our HSE policies, standards, programs and performance.

# Our Welding Standards

Our welding standards are set to match international standards and not just any shabby work is acceptable. We pride ourselves in our ability to hold our standards high.

# Our People

PPI Ltd. was founded by Olakanmi Kupoluyi, Oluremi Iroko and Ercan Durmus who together have over 20 years vast experience in food and beverage processing, food machinery, stainless food tanks manufacturing, industrial installations, structural works and automations.

We recruit well educated and ambitious people who thrive on change and challenge, are innovative, self-confident and accept responsibility by taking initiative and adapting to a stimulating working environment. We seek leadership traits, excellent communicators, strong academic performance and relevant professional experience.

People are the most important capital for our company. We recruit the very best and also grow our own talent. In all our offices and facilities, you will find outstanding individuals working to high standards as part of a powerful team.
