Welcome to Process Piping & Installation Ltd.

PROCESS PIPING AND INSTALLATION LIMITED (PPI LTD.) is an Engineering, Procurement, and Construction company which is duly registered under CAC (Corporate Affairs Commission) in 2021.

The company was founded by Partners who together have over 30 years vast experience) in food and beverage processing, food machinery, stainless food tanks manufacturing, industrial installations, structural works and automations, with Head Office at Ikeja, and workshop in Lagos State, Nigeria and project sites across various locations nationwide and internationally.

ABOUT US

PROCESS PIPING AND INSTALLATION LIMITED (PPI LTD.) is an Engineering, Procurement, and Construction company. The founding partners have vast experience in food and beverage processing, food machinery, stainless food tanks manufacturing, industrial installations, structural works and automations.

The company was founded by Olakanmi Kupoluyi, Oluremi Iroko and Ercan Durmus who together have over 20 years vast experience in food and beverage processing, food machinery, stainless food tanks manufacturing, industrial installations, structural works and automations.

At PPI, people are the most important capital for our company. We recruit the very best and also grow our own talent. In all our offices and facilities, you will find outstanding individuals working to high standards as part of a powerful team.

Our Vision

To become the trusted choice for dependable and efficient industrial solutions, empowering our partners' success.

Our Mission

Providing world class engineering services, and solutions that create superior value for our clients and stakeholders.

Our Core Values

1. Safety
2. Quality
3. Customer satisfaction
4. Just-in-time project

Motto

Delivering Quality In Every Process

Our Services

Our Services

At PPI Ltd, we ensure we deliver top quality engineering services to all our clients, maintaining industry quality standard and providing cost-effective solutions.

PIPING

Process piping
Gasline piping
Industrial piping including HDPE,
PPR & Others

WATER TREATMENT

Design & installation
Water treatment upgrading
Distribution Piping

TANK FABRICATION

Design
Fabrication of Process tanks
Tank Farm

MECHANICAL INSTALLATION

Installation of production line
Installation of process equipment
Installation of tanks and associate pumps.

ELECTRICAL INSTALLATION

Power
Industrial electrical
Instrumentation & communication
Panel building & installation

STRUCTURAL FABRICATION

Structural design
Fabrication of pipe & cable bridges
Fabrication of platform & warehouse

FIRE SUPPRESSION SYSTEM

Fire Hydrant Design
Fire 200 & Co2 Suppression
Fire hydrant System Upgrade
Sprinkler System

PROCUREMENT

Local & International procurement
Supply of plant needs
OEM part procurement

DESIGN

Piping Design & Isometrics
Mechanical and Structural Design

Piping

Our team have years of experience providing stainless steel process piping, mild steel piping, PVC and HDPE piping projects for various industries from beverage, farm produce, pharmaceutical, chemicals , oil and gas and other FMCG industries.

Process Room Installation

Syrup Room Upgrade

Chilled Water Piping

Utilities (Steam, Condensate, Water, LP & Electrical)

Fire Hydrant Piping

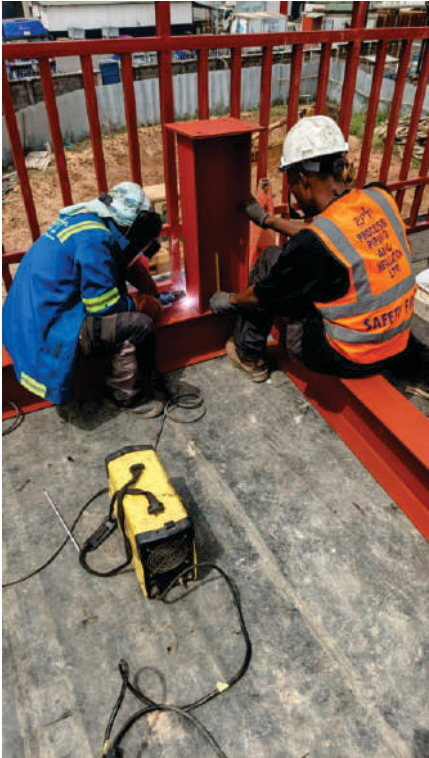

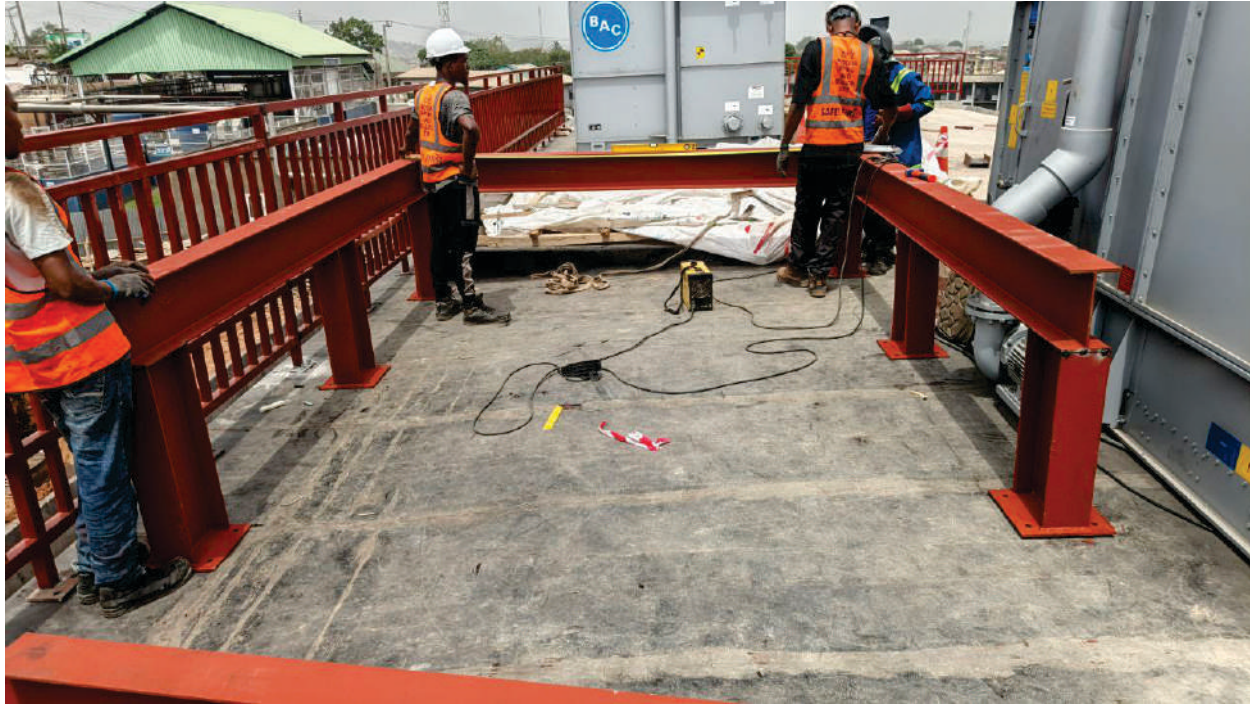

Electrical Installation & Instrumentation

Our team of qualified electricians provide a vast scope of services ranging from electrical powering and lighting, Automation of equipment, repairs and installation work.

Mechanical Installation

Our team provides industrial mechanical installation services, including the fabrication and installation of structural steel, safety railings, platforms, and access systems. Our skilled technicians handle on-site fitting, welding, and assembly to ensure durable, safe, and precise installations for industrial facilities.

Production Line Installation

We install production line equipment for various produce such as fruit and juice, wine, alcoholic and non-alcoholic, food, grain processing, soap, biscuit and a host of other produce.

Structural Fabrication

We provide industrial structural fabrication services, including the design, fabrication, and installation of steel structures such as platforms, pipe racks, walkways, and support frames for industrial facilities. Our team ensures high-quality workmanship, strict safety compliance, and durable structures tailored to meet the operational demands of manufacturing and processing plants.

Our Works

Chilled Water Piping

Detergent Production Plant

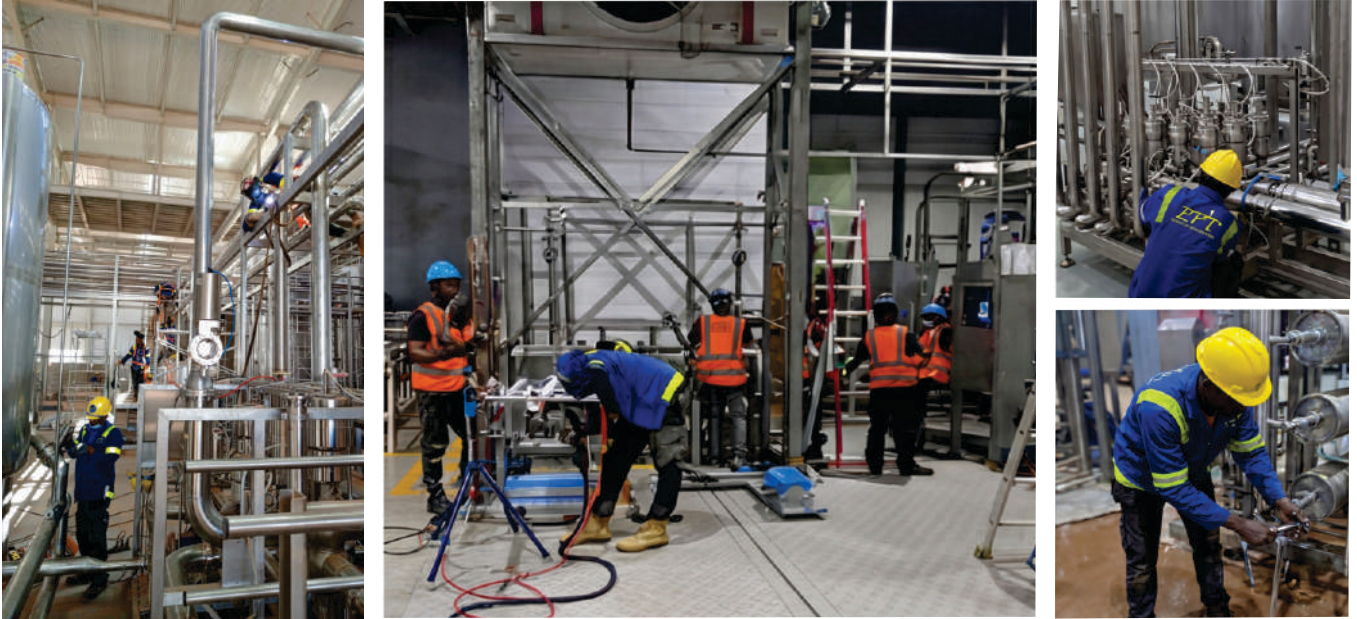

Flow Plate Fabrication

CIP

Syrup Room

Water Treatment

Gas Turbine Plant Installation

Effluent Treatment Plant

Generator Power Box

Fire Suppression Systems

Fire fighting systems are the systems that prevent the fire from being activated in case of fire.

Thanks to the fire extinguishing system, the loss of life and property in the event of fire is prevented.

Fire fighting system and techniques used in extinguishing vary according to the type of the substance and the properties of the fire

Our Fire fighting system are Water Extinguishing Systems (sprinkler and deluge), Foam Fire Extinguishing Systems, Clean Gas Extinguishing Systems, CO2 Gas Fire Extinguishing Systems and Kitchen Hood Extinguishing Systems.

Water Treatment Plant Installation

We offer a range of service in water production and treatment from source (river, underground sourcing) to pre-treatment, filtration, reverse osmosis, UV lighting and ozonation. We provide high quality welding seams that prevents contamination by medium and ensures proper cleaning.

HVAC Installation

We design a wide array of HVAC systems for domestic, commercial and industrial purposes from your homes to your companies. This demonstrates our expertise in understanding different spaces and coming up with a ventilation plan for each unique space.

Tank Fabrication

We fabricate a vast array of tanks (vertical, horizontal) for various use such as food and drinks production, water storage, production process tank, oil and fat storage tank and tank farms.

Procurement

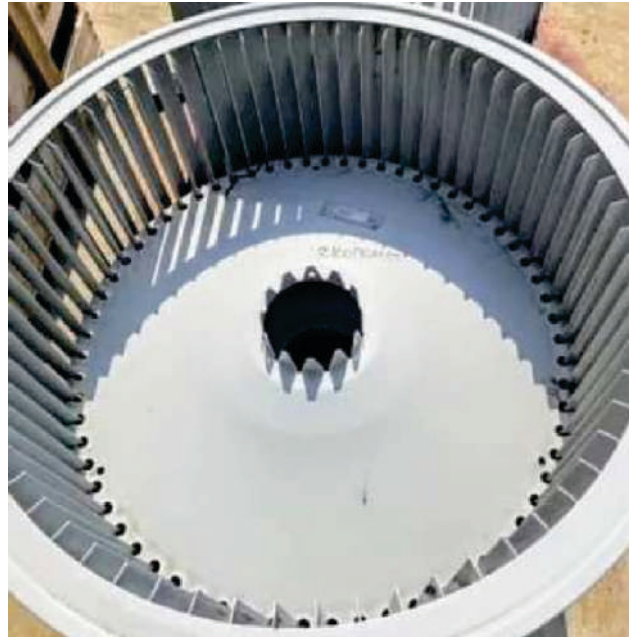

Our service is structured to help individuals, businesses and organizations maximize their investments by providing an impeccable value and reliable service. PPI Limited will work closely with you and your team to identify and manage costs across all purchase categories and procurement chain.

Through our supply chain network and partnerships with OEM (Original Equipment Manufacturers), you can rely on us to deliver the absolute quality.

Design & Installation

We design, prototype, fabricate, install and run engineering analysis over technological tools such as Autocad, constantly solving engineering problems and improving user experience.

Design & Construction of Radial Blower

Design & Fabrication of Mobile Gantry

Our Policies

Quality & HSE Policy Statement

Process Piping and Installation Ltd (PPI LTD) is fully committed in providing quality services to our valued clients in the fields of project management, engineering, procurement and fabrication/ construction for FMCG, chemical , power and energy industries.

While doing this;

- We will ensure to protect the environment by minimizing pollution as well as reduce waste where generated.
- We are also committed to adopting the tenets of the ISO 9001:2015 & 14001:2015 Standard to continually improve the quality and environmental friendliness of our services and products.
- Continually improve the quality, effectiveness and adopt innovations to guide our quality management system.
- This policy is communicated to all staff of PPI Ltd and interested parties.
 - This policy is reviewed to ensure continued suitability, as and when due

PPI Ltd's goal is to provide a safe and healthy work environment that is free from workplace injury and illness. This will only be achieved through the participation, co-operation and commitment of everyone in the workplace.

Our priorities are;

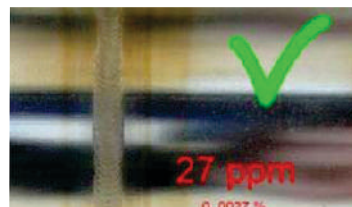

- A key Objective is Zero incidents throughout the organization and protect the environment.
- Minimizing environmental impacts associated with its activities.
- Comply with all legal and other requirements.

The following principles must be applied every day and at all sites in order to succeed in our commitment:

- Remove or alleviate hazardous situations in order to minimize risks to personnel
- Set HSE performance objectives, measure results, assess and continually improve processes, through the use of an effective management system
- Guarantee and monitor that our activities have minimal impact on the environment.
- Minimize our impact on the environment through pollution prevention, reduction of natural resource consumption and emissions, and the reduction and recycling of waste
- Apply our technical skills to all Health, Safety and Environment aspects in the design and engineering of our services and products
- Report and analyze all accidents, incidents and anomalies.
- Monitor our performance and check our management system in order to improve rules and procedures in conducting our activities.
- Maintain a consistent and transparent dialogue with authorities, local realities and other stakeholders, openly communicating our HSE policies, standards, programs and performance.

Our Welding Standards

Our welding standards are set to match international standards and not just any shabby work is acceptable. We pride ourselves in our ability to hold our standards high.

FOUNDERS PROFILE

ENGR. OLAKANMI KUPOLUYI

A mechanical and industrial engineering leader with nearly 2 decade experience, Ola leads PPI Ltd, delivering process piping, stainless steel fabrication, and plant engineering solutions to Nigeria's FMCG and manufacturing sectors, combining technical precision with commercial strategy to drive operational excellence.

Before PPI Ltd, Ola gained extensive experience in industrial engineering project execution, where he played a key role in delivering projects for major manufacturing companies across Nigeria, building the industry relationships and execution track record that underpin PPI Ltd.'s growth today.

ENGR. OLU IROKO

Before establishing PPI Ltd, Engr. Olu distinguished himself as a technically curious and solution-driven professional with strong expertise in engineering design, industrial installation, operations, and practical problem solving.

With over 15 years of experience, Olu has maintained a track record of delivering innovative and efficient engineering solutions across large-scale industrial projects while working with leading FMCG companies in Nigeria, which he has used to make a lasting impression in FMCG companies have taken note of and never doubted his analytical mind and judgement because of his ability to translate complex technical challenges into practical, results-driven outcomes.

ERCAN DURMUS

Ercan Durmus is a skilled site manager and welding specialist with extensive experience in the international beverage industry.

A certified master craftsman in apparatus, tank, and pipeline construction, he is also a German citizen and entrepreneur, leading stainless steel processing operations with expertise in TIG welding and technical documentation.

THE TEAM

Engineering Team

- Engineering Manager
- Design (Mechanical)
- Design (Process design)
- Draft Team

Project Management & Installation Team

- Project Manager
- Site Manager
- Technicians (*fitters, welders, erectors, electricians, insulators, scaffolders*)

Administrative & Project Support Team

- Safety Personnel
- Admin Manager
- QA/QC Personnel
- Sales

Our Clients

Here is PPI's Statement of Experience and List of satisfied **Clients**

Seven Up Bottling Company

Mechanical Installation and Piping

- Installation of Ammonia cooling system.
- Design, fabrication and installation of hot water generation system
- Installation and piping of sterile air to II production line.
- Upgrading of IRF water plant including piping and tank. Installation of water, syrup and Co2 of flow meters.
- Upgrading of cooling towers.
- Revamping of simply syrup sugar dumping station.

Dangote Sugar Refinery

Mechanical Works

- Revamping of process tanks (Cleaning, sand blasting and painting)
- Installation of process pumps and associate piping
- Installation of Bagging Machine for production lines
- Installation of Flat Conveyor belt for production lines

NBC Cocacola

Nigerian Bottling Company Plc

Installation & Procurement

- Supply of process tanks and equipment, Coca-Cola Nbc Challawa.
- Expansion of CIP ROOM Capacity, SSP, NBC Ikeja.
- Expansion of CIP process from Hot dissolving to Pet line CIP room.
- Caustic recovery line, NBC Abuja.
- Supply of concentrate mixing tank. Owerri, SSP, NBC.
- Installation of Heat Exchanger, NBC Maiduguri
- Construction of Monorail and Installation of electric hoist, NBC Asejire

Danone, Fanmilk

Structural, Mechanical Installation

- Danfarm Upgrade at Odeda Farm, Ogun State.
- Fabrication of 1 ton Gantry
- Fabrication of BAC Condenser Platform

Rite Foods Ltd.

...the symbol of quality

Piping, HVAC Installation, Structural Works

- Exhaust heat ducting of the production line equipment
- Installation of high pressure compressor and associate piping
- Fabrication of 2000 litres water storage tank and associate piping
- Design, fabrication and installation of access staircase, Ijebu Ososa.
- Upgrading of final syrup room

Pladis Foods Ltd.

Procurement

- Supply of industrial maintenance materials including mineral wool insulation and industrial chisels
- Supply of Generator Exhaust components.

Centec, Burkina Faso

Mechanical Installation, Piping

- Installation and commissioning of final & simple syrup.
- Installation and commissioning of CIP room, Burkina Faso.
- Installation and commissioning of WTP, Burkina Faso.
- Modification of Water Treatment Plant, Tunisia.

SSP, Nigeria

Mechanical Installation, Piping & Electrical Installation

- Installation of a Beverage production line, piping network and Utility, NBC Coca-Cola.
- Upgrade of final syrup and CIP room, Coca-Cola.
- Retrofit of Sosa drink production line. Rite Foods, Ososa

Ce Power

Mechanical Installation & Electrical Installation

- Fabrication of power box for gas generator, Ota.
- Retrofit of Genset Power and Top box, Ota

SC Johnson

Mechanical & Electrical Installation

- Installation of flow meter at water line facility.
- Plumbing works.

Caraway

Structural Works, Insulation Works

- Fabrication and Installation of bollards
- Insulation of pipes on production lines

Reckitt Benckiser Nigeria Ltd.

Fire Suppression System & Piping

- Installation of automatic sprinkler system at canteen, clinic & quality lab.

Otsuka Nigeria Neutraceuticals Co. Ltd.

Mechanical Works, Procurement

- Supply & Fabrication steel safe lockers.
- Fabrication of steel tables, chairs and office equipment

Nestle Nigeria, Plc.

Procurement

- Supply of Stainless Steel 316, Alfa Lava Non-Return Valve for Abaji Plant, Abuja.

Mamuda Group

Tank Fabrication

- Fabrication of Detergent Product Hoppers

CGGC

Piping, Mechanical Installation, Electrical Installation & Structural Fabrication

- Gas turbine installation and provision of steam and power supply to the end user, International Breweries, Ilesha & Sagamu.
- Running of kilometres of 6-inch gas pipeline for gas supply to a 14MW gas turbine.
- Installation of a 102-meter pipe bridge at Sagamu.

Globeleq

Mechanical Installation, Structural Design

- Fabrication & Installation of gas generation power box, Lagos.

Rumbu Industries Ltd.

Piping, Mechanical Installation

- Installation of Compressed Air line
- Piping works for steam and condensate line.
- Fabrication of blower duct for relaxer machine

Brenntag Nigeria Ltd.

Mechanical Installation & Piping

- Installation of caustic production plant, Brenntag, Nigeria.

Nigerian Aluminium Extrusions Ltd.

Piping, Mechanical Installation

- Modification of boiler room
- Modification of main press pump
